

| | | | |
|----|----------------|--------------|--|
| P1 | Mei Li | Symposium 1 | Light harvesting and photosynthetic electron transfer |
| P2 | Michihiro Suga | Symposium 2 | Evolution of photosynthesis |
| P3 | Maria Ermakova | Symposium 3 | Structures and functions of bacterial photocomplexes |
| P4 | Jun Minagawa | Symposium 4 | Photosynthetic gene expression |
| P5 | Kouki Hikosaka | Symposium 5 | Protein regulation and turnover |
| P6 | Xin-Guang Zhu | Symposium 6 | Young scientist seminar |
| P7 | Barry Pogson | Symposium 7 | Mechanism of water oxidation in PSII |
| P8 | Takumi Noguchi | Symposium 8 | Chloroplast metabolism and biogenesis |
| | | Symposium 9 | Photosynthetic membrane protein complex, structure and function |
| | | Symposium 10 | Ecophysiology |
| | | Symposium 11 | CO₂ fixation and crop yield improvement |
| | | Symposium 12 | Biofuels and artificial photosynthesis |
